

A BLOODY DUEL AT EAU CLAIRE

Two Men Battle with Army Sabres.

HELP JUST IN TIME TO STOP MURDER.

Woman the Cause of the Affray—The Weapons Wielded Had Been Used as Decorations in the Room—Photographer Thompson Lay Helpless on the Floor When His Adversary Was Seized—Affair is Mysterious—Other State News.

Eau Claire, Wis., Sept. 22.—[Special.]—Hugh Thompson's photograph gallery on Fourth avenue was the scene of a duel with swords this morning. A handsome young woman appeared there at an early hour and was hired by Thompson as an assistant. About two hours later a man in a great state of excitement entered the gallery. He said his name was Maguire, and that he was the husband of the girl. Exactly how the fight started is uncertain, but hanging on the wall were two sabres and in a minute Thompson and Maguire were engaged in a deadly conflict. The girl called help, and as Arthur Rickards, a furniture man, rushed into the gallery he saw Thompson on the floor covered with blood and Maguire apparently about to run the sword into Thompson's chest. Rickards pulled Maguire off and the latter made his escape.

40,000 PEOPLE AT ELKHORN FAIR

Attendance Yesterday Was the Largest in the History of the Society. Elkhorn, Wis., Sept. 22.—The Walworth county fair has been blessed with fine weather and has once more demonstrated its hold on the people with a presence of a jostling, eager, good humored crowd of 40,000 souls. There was found no croaker so bold as to hint of any possible decadence of the great annual show. The attendance yesterday showed by its record that its drawing powers had not weakened. Casting an eye over the amphitheater and the outlying grounds the fact was more than demonstrated that there were more people on the grounds than ever before on any previous day of the society's history.

Big Crowd Present.

By noon everything was crowded. Teams were formed about the entrances for the best trained ticket takers were deep in a labyrinth of confusion. Yet everybody was satisfied with the exception of the usual few who would find some reason to kick even if they were given a lion on the front seats of eternity. When the gates were opened they swarmed through and simply took the fair by storm.

On this day the side show business was at its zenith and if any of the freaks of the nineteenth century were not on hand it was simply because they were not to be found. There is a contrivance for testing lungs with a mouthpiece that has served unbadly for a thousand years. There is a jostling, impatient crowd by the striking machine and the sledge is swung with a regularity that suggests to operative rail splitting, while the dimes that pay for the empty seat are bulging the pockets of an insistent stranger.

Good Order Prevails

During the fair the utmost order prevails. "On the grounds there are thousands of dollars' worth of ground" space occupied by dining halls, religious and secular; eating stands; nondescript booths, and candy factories distributing long drawn out sweetmeats manufactured by special artists, but the utmost quiet prevails and the police regulations are admirable.

The races resulted:

The 2:40 class trot, purse \$300—Haymarket won in three straight heats in 2:30, 2:30 1/2, and 2:34. Maud B., second, and Bell Willis, third. The state record on a half mile track was lowered by half a second and the Walworth county record was decreased by seven seconds. Free for all pace, purse \$400—Sherman Clay won three straight heats in 2:12, 2:14, and 2:16 1/2; Newton W. second and Almsworth third.

The assignee now has on hand about \$26,000, sufficient to pay a further dividend of a fraction over 30 per cent, on claims amounting to \$86,995.37. Fire at Chicago Stockyards.

Chicago, Sept. 22.—For the second time in three years fire has wiped out mammoth horse sale stables at the stockyards. The Dexter Park pavilion, two residences and three detached horse barns were destroyed, and the old stockyards hotel, the Transit house, was badly damaged. For awhile it was feared the flames would spread to the stockyards proper, but hard work on the part of the fire department, aided by a strong southwest wind, which carried the flying embers in the opposite direction, averted this danger. The property loss is estimated at between \$300,000 and \$400,000.

Eighteen horses were burned to death and thirteen persons were injured, one of them perhaps fatally.

To Send Thousands of Troops.

London, Sept. 22.—The correspondence between Sir Alfred Milner and President Steyn strengthens the current belief here that today's cabinet council will decide to send out from 10,000 to 20,000 additional troops to South Africa, and leave all questions of diplomacy open until their arrival. Leading financiers in the city are convinced that war is inevitable, and that there is "no other way out of it."

Rumors that the Transvaal government will be asked to disarm and abandon its lines of fortification in Pretoria and Johannesburg are premature but not unfounded.

Montejo Is Favored.

Madrid, Sept. 22.—Rear Admiral Montejo, who commanded the Spanish naval forces in the battle of Manila bay, and who has been on trial before the Supreme court, has been condemned to retirement without the right of promotion.

WAR IS IN SIGHT THE BRITISH SAY

English and the Boers Must Surely Clash.

FINANCIERS CAN SEE NO OTHER POSSIBILITY.

Both President Kruger and Secretary.

Chamberlain Have Gone too Far to Retreat with Honor, Hence Conflict is Inevitable—Both Sides Play Waiting Game So as To Be Ready—The Cabinet Meeting at London Today.

London, Sept. 22.—[Special.]—Leading financiers of London are convinced that war is now inevitable since neither Chamberlain nor Kruger can now retreat with honor. The common expression heard in Lombard street is that "each side has gone too far to retreat."

An experienced banker remarked that England is only waiting until all the reinforcements are ashore, and the Boers are only waiting for a rain which will give water and grass for their cavalry on the veldt. In the course of six weeks, he says there will be a quick three weeks' campaign.

Is the Crisis Postponed?

London, Sept. 22.—[Special.]—It is officially announced that Sir Redvers Buller, who will command the British forces in South Africa, will go to South Africa, not immediately, but eventually. The announcement is probably one of the results of the cabinet meeting and indicates that the whole crisis is postponed. England, however, is preparing for eventualities.

London, Sept. 22.—[Special.]—It is now stated that the cabinet decided not to take immediate action on the Transvaal's latest note.

London, Sept. 22.—[Special.]—Downing street is filled with people today, all eager to catch a glimpse of the ministers as they arrived at the cabinet session. The crowd cheered all the ministers as they drove up to the foreign office, but the greatest interest was shown in the arrival of the Marquis Lansdowne, the secretary of state for war, he having charge of the plans for mobilization of troops. Sir Joseph Chamberlain, the colonial secretary, also received an ovation. The entrance of Sir Ralph Knox, permanent secretary of the war office was regarded as significant.

Send Another Message.

London, Sept. 22.—[Special.]—The Boers' reply and the correspondence between Steyn of the Orange Free State, was considered in detail. Finally it was decided to send another message to President Kruger.

Lord Wolseley, the commander of the British army, Sir Redvers Henry Buller, who will command the South African forces in the field, and others, called at the war office immediately after the meeting.

More Troops Sail.

Bombay, India, Sept. 22.—[Special.]—The steamer Pandua with the remainder Nineteenth Hussars and some cavalry and the brigade staff, sailed today for Natal.

Cape Town, Sept. 22.—A sensation has been caused here by the report that Sir Alfred Milner has made an attempt to exercise suzerainty over the Orange Free State and that President Steyn has curtly repudiated his authority. The Orange Free State, it is understood, is preparing to supply the Transvaal with 14,000 magnificent marksmen in case of war with the British. All the Dutch of South Africa regard the impending war as an attempt to uproot the republican principle, which has been firmly grounded among them. Many Britons in Cape Colony are demanding that Sir Alfred Milner be superseded, Lord Dufferin being widely suggested as the kind of statesman who is needed to restore confidence in the fair dealing of the British government.

British Army Men Impatient.

London, Sept. 22.—The morning papers are all impressed with the gravity of the situation and murmurs are beginning to be heard regarding the dilatoriness of the government in getting troops forward. Military men are said to be impatient. They assert that everything is ready and that they are only waiting for orders. It is recognized that the attitude of the Orange Free State makes the original estimates based upon Dutch neutrality too small. Evidently a much larger force will be required.

German military experts, realizing the seriousness of the campaign before Great Britain, are commenting with astonishment upon the fact that Great Britain is so behind hand in her preparations.

Have Left India for the Cape.

Bombay, Sept. 22.—Major-Gen. Hunter and his staff, with the Devonshire regiment and a squadron of the Nineteenth hussars, have sailed for the Cape.

Makes No Appeal to Victoria.

London, Sept. 22.—Reuter's Telegram company announces that no message had been received by Queen Victoria from President Kruger.

## WILL ASK ANTI-TRUST LAWS

Governors Have Agreed on a Plan of Action.

## THE RESOLUTIONS ADOPTED.

Federal and State Uniform Enactments Are Hoped For—Unanimous Sentiment in the Conference, at St. Louis—Adjournment Taken.

St. Louis, Mo., Sept. 22.—All the governors in the United States in a short time will receive a neatly printed copy of the resolutions adopted by the governors and attorney-generals who have been attending Gov. Sayers' anti-trust conference. They will be requested to transmit the resolutions to their legislatures, to the end that a chain of laws uniform in character and provisions may be stretched across the country to check the advance of the trusts.

The resolutions were adopted unanimously, Gov. Pingree joining with his democratic colleagues in giving hearty expression to his affirmative vote. If the resolutions are transformed into laws, all trusts, pools and combinations in restraint of trade will be classed as criminal, and "tramp corporations" will find existence a matter of difficulty.

The resolutions speak for themselves and are as follows:

"The committee on resolutions, to which was referred several resolutions and papers, in lieu of all of them submit the following, with the recommendation that it be adopted by this conference: That we believe the best present available remedies be along the following lines:

1. The enactment and enforcement, both by the several states and the nation, of legislation that shall adequately and fully define as crimes any attempted monopolization or restraint of trade in any line of industrial activity, with provisions for adequate punishment both of the individual or the corporation that shall be found guilty thereof, and punishment to the corporation to the extent of its dissolution.

2. The enactment by each of the states of the Union of legislation for the adequate and proper control and regulation of corporations chartered by that state. That no enactment by each state of laws that will prevent the exercise of any foreign created corporation into its limits for any other purpose than interstate commerce, except on terms that will put the foreign created corporation on a basis of equality with the state entered, and subject to the same laws, rules and regulations of the state that it enters which are applicable to the domestic corporations of that state.

3. The enactment of state legislation declaring that a corporation created in one state to do business exclusively in other states than where created shall be prohibited from admission into any state.

4. That no corporation should be formed, in whole or in part, by any corporation. That no corporation shall own or hold any stock in another corporation engaged in a similar or competitive business, and that no officer or director of a corporation shall be the officer or director of the owner of stock in another corporation engaged in a similar or competitive business; the object or result of which is to create a trust or monopoly.

5. Recognizing that trusts are usually composed of corporations and that corporations are but creatures of the law, and can only exist in the place of their creation and cannot migrate to another sovereignty without the consent of that sovereignty, and that this consent may be withheld when desired, we recommend as the sense of this conference that each state pass laws providing that no corporation which is a member of any trust or trust in that state or elsewhere can do business in that state.

Resolved, That it is the sense of this conference that all the capital stock of private corporations should be fully paid either, first, in lawful money, or second, in property of the actual cash value of the amount of the capital stock, and that in all private corporations with a capital stock issued in excess of the amount actually paid up, as above provided, the shareholders shall be liable to the extent of twice the face value of the stock held by each.

Gov. Sayers, just before the conference closed, made an energetic address, in which he declared that, although he was a democrat of democrats, he had not sought the conference to benefit his party, but for the good of all the people of the country. Then the conference adjourned sine die.

None of the governors who voted for the resolutions would say what he intended to do with his legislature. Bach was asked if he intended calling a special session of the legislature to pass anti-trust laws. Gov. Pingree said he didn't know what he would do. Gov. Sayers said there would be an extra session of the Texas legislature to act on the report of the Texas tax commission; he added the legislature would not be called upon to pass anti-trust laws, as he regarded the Texas law as competent to meet the conditions. Gov. Jones of Arkansas said the Arkansas law was in line with the resolutions adopted, and Gov. Stephens said the Missouri law was all right.

Convention at Boston Indorses Free Silver and Bryan.

Boston, Mass., Sept. 22.—The democrats of Massachusetts in convention Friday were ruled by George, Fred Williams and they carried out the program he mapped out without variation, electing a state ticket of his choosing and also delegates to the national convention, who are the first in the country selected and pledged to Bryan and silver.

Robert Treat Paine, Jr., of Boston, was nominated for governor.

Failure on Chicago Board of Trade.

Chicago, Sept. 22.—The board of trade commission house of Barrett, Parnum & Co. failed yesterday, and the scalpers and brokers in grain as a result have losses to meet variously estimated at from \$100,000 to \$150,000. In the direct loss to the local trade the failure is the worst in years. The chances are against its being far-reaching in its effect. It is all traceable to a plunge. The firm has made no statement, but according to all accounts has had an excellent commission business. The failure is attributed to the personal speculations of the senior member of the firm, John P. Barrett.

Jacksonville, Fla., Sept. 22.—Dr. Porter's Key West bulletin Thursday reported twenty-four new cases and two deaths.

## THIS DAY IN HISTORY.

479 B. C.—Battle of Plataea; the Persians in Greece badly routed and Mardonius, their commander, killed.  
1555—Battle of Zutphen; Sir Philip Sidney mortally wounded.  
1776—Nathan Hale executed at New York.  
1823—Major Theodore Winthrop, author and soldier, born; killed at Big Bethel, Va., June 10, 1861.  
1862—President Lincoln issued his warning proclamation of emancipation, which was perfect in form, treating the slaves in all states in rebellion as the last named date.  
1867—General Dourbaki, noted French leader in the war of 1870, died at Bayonne, France.

## TOO MUCH TALK.

Under the heading "Offensive Interference," The Oshkosh Northwestern prints this sensible editorial:

"Another interference in naval matters is made conspicuous. Some time ago Admiral Schley applied to be assigned to sea duty. It was decided to grant his request and make him commander of the South Atlantic squadron, which in view of troubles in South America and possible war in Africa would be the most responsible command in the navy for some time to come. But now a delegation from Baltimore goes whining to the president that such an assignment is not commensurate with Schley's dignity and previous services. What assignment they have an idea would be more commensurate with his dignity etcetera, they do not appear to disclose. But the navy department says that it is that or nothing; because there is no shore duty befitting his dignity and services, and there is no European squadron at present. Consequently if Schley wants to do sea duty, the South Atlantic, now the most important station, is the only one open to him. This instance illustrates what is becoming an evil in our system. Some army officers are to be appointed and politicians rush in to have their friends appointed. The navy assigns a commander to a station and in rush senators and party leaders and personal friends protesting and petitioning that he be given so and so. With so many fingers in the pie and favoritisms demanded it is only wonderful that the army and navy departments can do business at all or carry on any systematic plan of action. In fact they cannot, and much of the confusion, mistakes and scandals during the Spanish war was due, more than anything else, to political and private and state interference with official prerogatives and purposes."

Is Janesville to be held back because of sectional bickerings, or is she to progress because of the united efforts of her people? This question is an important one, and one that cannot be lightly passed to please the few whose only creed is to better themselves and let the town "go to pot." What we want is more patriotism and less selfishness. As a prominent west sider recently expressed it "if this jealousy keeps up, we will soon have two separate cities, one on each side of the river."

## Beloit Free Press:

Janesville gentlemen will do well to keep away from Madison. Three of them visited that city recently and were promptly spotted by the detectives for burglars, who made their lives a burden by closely following them about the city. The detectives had orders to keep a watchful eye on all suspicious persons. Pretty soon it may be necessary for Janesvillians to carry certificates of good character, with photographs attached, in their pockets when on their travels.

Perhaps, but not when they travel to Beloit, dear Free Press, not when they travel to Beloit.

Governor Scofield's State Fair speech is being widely commented upon; but the general verdict, regardless of whether or not the sentiment expressed meets approval, is that the speech was delivered by a thoughtful, conscientious, conservative, and fearless man—one who can be trusted at all times and under all circumstances.

Senator Billy Mason of Illinois, says "I am ashamed of my country." That's all right, Billy, but we doubt if you are more ashamed of your country, than your country is ashamed of you.

Attorney Stover of Milwaukee punched the man he was prosecuting in a Milwaukee court the other day—"stove his face in", as the poet puts it.

Beloit Free Press—A good many men are coming out of the Klondike nowadays with a very few ounces of gold and from 100 to 150 pounds of scurvy.

The "Calamity Howler" has no occupation these days. True, he can still howl, but nobody pays any attention to him.

Dreyfus, they say, is coming to the United States, and it is safe to say that 9456 reporters will meet him at the steamship dock.

According to the public prints, some of the Milwaukee courts seem to be run under the London Prize Ring rules.

The Baraboo people who are trying to annul the franchise of the water company, should come to Janesville and look about a bit before they get in too deep.

The same thing was tried here, but the action traveled after the manner of the crawfish—backward.

## SEEK RECRUITS HERE

Lieutenant Blanchard is Now Enlisting Men for the Thirty-Eighth Regiment of Volunteers.

Janesville aspirants for military honors have a chance to join the army today and tomorrow at the Grand Hotel.

Lieut. R. D. Blanchard opened an office there this afternoon and is now patiently waiting for recruits.

Lieut. Blanchard belongs to the 38th U. S. Volunteer Infantry and the recruits wanted are for that regiment.

## OPERATORS CONCEDE A POINT.

Agree to Give Coal Miners at Colfax an Advance in Wages.

Springfield, Ill., Sept. 22.—Operators T. S. Wilhite and Discho of the two mines at Colfax held a conference Thursday with State President Hunter and State Secretary-Treasurer Ryan of the United Mine Workers of America, the result being that the operators agree to pay 42 cents a ton, an advance of 2 cents, and to advance the wages of the day laborers from 15 to 25 cents, and other laborers in proportion. The operators further agree to pay the state scale as soon as their output amounts to 250 tons daily.

Coal operators of Peoria and Tazewell counties decided to advance the price of soft coal from 6 1/2 to 7 cents a bushel after Sept. 18. At Bohlander and Grant mines, east of Peoria, the miners made a demand for an advance from 7 1/2 cents to 8 1/2 cents a ton, basing their demands on the advance made by the operators on the retail price. The operators refused to grant the demand and the miners have struck.

## TEST SUIT AGAINST A TRUST.

Attorney-General to Prosecute Anderson (Ind.) Window-Glass Concern.

Indianapolis, Ind., Sept. 22.—Attorney-General Taylor Thursday declared that he will make a test case of the suit brought against the window-glass trust at Anderson. "We may as well determine now," he said, "whether trusts can be defeated in this state under common law."

The suit brought at Anderson is based on the common law, and it is the purpose to show that the glass companies have exceeded their charter rights. Suit was brought by the prosecuting attorney of Madison county at the instigation of the Window Glass Workers' association.

## Reeves a Candidate for Governor.

Streator, Ill., Sept. 22.—Walter Reeves of this city will be a candidate for the republican nomination for governor before the next state convention. A conference of republicans from various sections of the state held here Thursday fully determined the matter. Resolutions were passed urging Mr. Reeves, who is the present representative in congress from the Eleventh district, to become a candidate for the nomination for governor, and he has decided to formally enter the campaign.

## LEAF MARKET QUIET AFTER THE FLURRY

### GENERAL MOVEMENT OF THE CROP IS NOT BEGUN.

Two Large Operators Who Have Been at Work in All Sections, Have About Completed Their Work—The Farmers Have Built High Expectations.

A general movement of the new crop which the growers had some reason to anticipate from an early flurry in the market does not materialize. Outside of the Vernon county, sections local dealers have not been drawn into the buying excitement. Thus far but two large operators have entered the buying field in all sections and evidences are present that these firms have about concluded their purchases of choice selections, while a few favorable localities have been pretty well picked up. If these surmises are true a general movement of the crop in all sections may be delayed longer than the growers had hoped for. On the strength of the opening sales the farmers have built up high expectations in regard to prices, and dealers may conclude to wait awhile and allow time to soften their ideas along this line. At any event, the Edgerton reporter says, the present prospects do not point to an early general movement of the crop.

**Movement Loses Interest.**  
The movement in the new crop is gradually losing interest and what buying is done during the week has been attended by more careful and prudent methods. Aside from the riding of local dealers in Vernon county, Sutter Bros. are about the only firm that has buyers out this week. One of their men made a few sales on Albion Prairie during the week, the particulars of which have reached us being the crops of Martin Nelson, 7a at 7c round. Christian Olson, 8a at 7c round. Walter Vickers, 8a at 7c round. Some buying is reported in the northern Dane county section and about Oxford at former quotations. The failure to interest other buyers in the movement does not argue well for a general movement of the crop at present.

**Sampling the '98.**  
Sampling of the '98 is becoming quite general at present and, the percent of damage found is not alarming while the character of the cured leaf is very satisfactory. Some sales among packers are reported of moderate sized transaction. C. L. Culton has sold 4000s of '98, and Andrew Jensen a 100 case lot. The Bamberger firm have also some trades in view. The harvest of the new crop is now practically completed in all sections and the weather of the week favorable to the curing in the sheds. The shipments out of storage reach 20 car loads or 99b cases for the week to all points from this station. Since last report 845cs of cigar leaf were exported from New York.

## THE NEW GAME LAW GOOD FOR SHIPPERS

### KOSHKONONG HUNTERS CAN MARKET THEIR BIRDS.

Pack Up Any Quantity, Go to Rockton, Ill., with Them, and Re-ship Them to Eastern Cities—Assemblyman Wheeler's Opinion on the License Clause.

Assemblyman William G. Wheeler, chairman of the assembly judiciary committee, does not coincide with the state game warden in his decision that the license feature of the game law applies exclusively to hunters who shoot aquatic fowl and deer.

"I wrote Mr. Ellarson," said Mr. Wheeler, "that in my opinion he had better consult the attorney general before he began a prosecution, or he might have to issue a new circular."

There has been some discussion on the point of the validity of the amendment prohibiting spring shooting of ducks, as the act had no repealing clause. Mr. Wheeler says that fact makes no difference, however, as the law will hold.

The open season for the killing of snipe is twice given in the law. The law of 1898 made it from September 1 to December 1, while the new amendment states it as from September 1 to January 1.

The subsequent enactment rules, however, so the season lasts until January 1. It was clearly the intention of the new law to prevent the shipment of game out of the state, but far as Lake Koshkonong is concerned, it makes the shipment a simpler matter than it has been in some years. The law provides that no game shall be shipped unless the box is labeled with the owner's name, and giving the contents of the package, and the owner must accompany the package "on the same train or conveyance." Unless the laws of Illinois prevent, the man who wants to ship ducks from Koshkonong can hold his birds until he gets a quantity; label them as required; ride with them on the train to Rockton, Ill.; put new labels on them and send them to Boston, Chicago or New York. The law places no limit on the number of packages that can be taken from the state, provided that the owner accompanies them.

## Eczema! The Only Cure.

Eczema is more than a skin disease, and no skin remedies can cure it. The doctors are unable to effect a cure, and their mineral mixtures are damaging to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood diseases.

Eczema broke out on my daughter, and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to two celebrated health springs, but received no benefit. Many patent medicines were taken, but without result, until we decided to try S. S. S., and by the time the first bottle was finished, her head began to heal. A dozen bottles cured her completely and her skin is perfectly smooth. She is now sixteen years old, and has a magnificent growth of hair. Not a sign of the dreadful disease has ever returned.

## MINERS HE'D FOR MURDER.

Coroner's Jury at Carterville Renders a Verdict in the Riot Case.

Carterville, Ill., Sept. 22.—The secret verdict of the coroner's jury in the riot case is in two sections. The first states that Huse Bradley, John Black, T. L. Floyd and Henry Branum, came to their deaths by gunshot wounds inflicted during a riot, and charges Wesley Shadowen, Willis Shadowen, Elmer James, Lem Shadowen, Willis Carney, Will Kelly and others unknown to the jurors with being engaged in the riot. The jury states that it is unable to say which of the accused men killed the negroes.

In the second section of the verdict the jury finds that the fifth negro killed—Slim Cummings—was shot by Elmer James and others, thus making a direct charge of homicide against James.

Marion, Ill., Sept. 22.—The prisoners in jail charged with participating in the riot at Carterville Sunday have decided not to ask for a preliminary hearing, but will await the investigation of their cases by the grand jury, which meets here next Monday. If indictments are found against them, they will apply for a habeas corpus hearing of the charges and endeavor to obtain release by that medium.

## Reunion of Blue and Gray.

Evansville, Ind., Sept. 22.—Arrangements have been completed and the invitations issued for the national reunion of the blue and gray to be held here on Oct. 10 to 13. The reunion is intended to comprehend all who fought in American wars, including Mexican veterans, survivors of the north and south who fought in the civil war, and the younger generation who took part in the war with Spain. Demand Place for Grand Army.  
New York, Sept. 22.—Gov. Theodore Roosevelt at Cooperstown, N. Y., last night declared that the Grand Army of the Republic must take part in the Dewey parade. "I have wired Gen.

Roe," the governor said, "to give the Grand Army the right of line or any other position they want. If they do not get it I will revoke the order of formation issued by Gen. Roe." Gov. Roosevelt is Gen. Roe's superior officer, and the Grand Army will probably march in the place of honor.

## Extra Session Not Likely.

Washington, Sept. 22.—As the time for the convening of congress approaches senators and representatives who have expressed themselves on the subject are positive that body will not meet in advance of the time prescribed by the constitution. Although there is great pressure being brought to bear upon the president by currency reformers to call an extra session to enact financial legislation, it is the general belief these demands will not be acceded to.

## Three Killed at Crossing.

Albia, Iowa, Sept. 22.—A Burlington passenger train struck a wagon on a crossing four miles east of Albia Thursday, killing three persons and injuring two others. Jasper Beebe, an old man of Avery, his son, aged 13, and his daughter, Mrs. Johnson, are the dead. The injured are Mrs. Johnson's two little girls. One has a crushed skull and will probably die. The other sustained a broken leg.

## Illinois Methodist Conference.

Charleston, Ill., Sept. 22.—Presiding elders read their reports before the Illinois conference of the Methodist Episcopal church Thursday, showing the church to be in a prosperous condition. In the afternoon Bishop Thoburn, missionary bishop of India, delivered an address for the anniversary of the Women's Foreign Missionary society.

## Spanish Officers on Trial.

Hundreds Voluntarily Endorse a Scientific Product.

A Statement by a Well Known Citizen Who Has Found Great Relief by Using It.

The great good that Morrow's Kid-ne-oids are doing in Janesville for all forms of kidney and urinary disorders is being daily told by our citizens. All who use Kid-ne-oids for backache, dizziness, sleeplessness, nervousness and general debility give hearty expression of the quick relief they obtained.

Mrs. A. H. Taylor, 60 Prospect Ave., whose husband is a painter in Kent's shop, says: "My husband has complained of kidney backache for the past two years. He was also subject to rheumatism in his joints and to spells of dizziness and nervousness. He could not sleep or rest on account of his troubles. He was treated by doctors and took different kinds of kidney remedies, but only temporary relief followed, until he heard of Morrow's Kid-ne-oids and used them according to directions. Since using Kid-ne-oids he has not complained of backache or any of his former troubles, he sleeps well and looks so much better."

Morrow's Kid-ne-oids are not pills, but yellow tablets, and sell at fifty cents a box at all drug stores and at The People's Drug Co.'s store.

## DREYFUS INCIDENT CLOSED.

French Minister of War Officially Declares Affair Ended.

### GENERAL ORDER TO THE ARMY.

Marquis De Gallifet Sends Out a Spirited and Patriotic Document to Be Read to the Troops—"No Further Repression."

Paris, Sept. 22.—The minister of war, Gen. de Gallifet has addressed this order to the corps commanders: "The Dreyfus incident is closed. The military judges, enjoying the respect of all, have rendered their verdict with complete independence. We all, without harboring after-thought, bend to their decision. We shall in the same manner accept the action that a feeling of profound pity dictated to the president of the republic. There can be no further question of reprisals of any kind. Hence, I repeat it, the incident is closed. I ask it, and, if it were necessary, I should command you, to forget the past, in order that you can think solely of the future. With you and all my comrades I proclaim vive l'armée, which belongs to no party but to France alone."

"GALLIFET." The order will be read to the troops throughout the French army.

### PARDON DECREE IS PUBLISHED.

French Minister of War Urged Government to Act.

Paris, Sept. 22.—The Journal Officiel publishes the decree granting pardon to Dreyfus. In a report preceding the decree the Marquis de Gallifet, minister of war, points out that Dreyfus has already undergone five years' deportation, but that, as the law does not assimilate his deportation with seven years' solitary confinement, the prisoner would have to undergo ten years' detention.

The minister also calls attention to the fact that the health of the prisoner is seriously compromised and that he would not be able without great danger to undergo prolonged detention. The report of the war minister concludes thus:

"The government will not have met the wishes of the country, which desires pacification, if it does not hasten to efface all traces of the painful conflict. It belongs to you, M. le President, by an act of lofty humanity, to give the first pledge of the work of appeasement which opinion demands and the good of the republic commands."

Dreyfus in South of France. Carpentras, Department of Vaucluse, France, Sept. 22.—Former Capt. Dreyfus arrived here Thursday morning and went to the home of M. Paul Valabregue, his brother-in-law. Although his arrival was soon known, no demonstration occurred. Mme. Dreyfus is expected here tonight. While Dreyfus' health does not permit of his receiving visitors, it is hoped the climate will restore his strength during the next few months, which he is expected to spend here.

Would Save Gen. Mercier. Paris, Sept. 22.—Eight thousand citizens of French Lorraine have signed a petition to Minister Gallifet begging that Gen. Mercier may not be prosecuted.

## Ideal Milk Stands All Tests

The point brought up at a "Council" meeting some little time since, regarding the inspection of city milk, would, if enforced, find Ideal Aerated Jersey Milk ready for any test. It is cooled and bottled in the most approved manner, bottles are scalded and thoroughly rinsed and each bottle fitted with clean, new, wood pulp corks. It will keep well and is perfectly pure. When cream forms on milk and becomes stringy it is impure. Ideal Milk forms perfect cream.
